Porsche Driver's Selection

Status: 01.07.2017

Just one look and you'll know it's a Porsche. The characteristic roof line, with wings that rise above the bonnet and powerful shoulders at the back – all go to make up the characteristic Porsche look that each model interprets in its own way. These features and more have captivated design aficionados and sports car enthusiasts for over 60 years – whatever the scale.

When it comes to model cars, the Porsche Driver's Selection reflects the same loving attention to detail as in any Porsche – be it on the racetrack, a country road or the desk in front of you. These miniature versions reflect the full-sized originals right down to the wheel rims, and capture all their sports-car charm one to one, even if the actual scale is 1:43, 1:18 or 1:8.

This catalogue gives an overview of all the models that are currently available.
